AVR PRO 2000VA 3% SERVO VOLTAGE STABILIZER

REGULAR RANGE

PRODUCT CODE
5AVRZP2000

EAN
5903293765982

CATEGORY
Voltage stabilizers and converters

SUBCATEGORY
Single-phase AVR PRO 3% mains voltage stabilizers

ABOUT THE PRODUCT

AVR PRO 2000VA 3% SERVO VOLTAGE STABILIZER combines the functions of a voltage regulator and surge protection device. It stabilizes the input voltage by automatically reducing excessively high values and increasing excessively low values to the appropriate level.

W the safe voltage value is exceeded, it disconnects the connected device from the mains, protecting it against damage. It also suppresses interference introduced into the mains by other devices and operates with power generators.

The PRO version uses a servomechanism controlling an autotransformer, ensuring output voltage accuracy of ± 3%. The stabilizer is intended for use with, among others, computer systems, servers, routers, modems, network components and consumer electronics equipment such as amplifiers, audio mixers, loudspeakers, televisions, stereo systems, CD-DVD players and receivers.

The modern design and compact dimensions allow the device to be used in both small and large spaces. The stabilizer is intended for indoor use.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Apparent power**	2000 VA
	Input voltage range	130 - 260 V AC
	Input frequency	50 Hz / 60 Hz
	Output voltage	230 V
	Output voltage accuracy	± 3%
	Delay time	6 s
	Efficiency	98%
	Power consumption under load	18 W
	Power consumption without load	4,3 W

TECHNICAL SPECIFICATIONS - CONTINUED

Protection and operating environment	**Protection types**	Overload, undervoltage, overvoltage, overtemperature, short-circuit
	Operating environment	Device intended for indoor use
Overall dimensions and weight	**Device dimensions**	168 x 255 x 146 mm
	Net weight	5,4 kg ±3%
	Individual package dimensions	320 x 205 x 190 mm
	Unit packaging weight	5,7 kg ±3%
