AVR PRO 5000VA 3% SERVO VOLTAGE STABILIZER

REGULAR RANGE

PRODUCT CODE
5AVRZP5000

EAN
5904100450558

CATEGORY
Voltage stabilizers and converters

SUBCATEGORY
AVR PRO 3% single-phase mains voltage stabilizers

ABOUT THE PRODUCT

AVR PRO 5000VA 3% SERVO VOLTAGE STABILIZER combines the functions of a voltage regulator and surge protection device. It automatically increases excessively low mains voltage and reduces excessively high mains voltage, maintaining it at the appropriate level.

The stabilizer protects connected devices against damage. W the safe voltage value is exceeded, it automatically disconnects them from the mains. It also suppresses interference introduced into the electrical network by other devices and works with power generators.

The PRO version uses a servomechanism to control the operation of the autotransformer, ensuring output voltage precision of ± 3%. The solution is intended to power, among other things, computer sets, servers, routers, modems and network components, as well as consumer electronics and audio equipment.

The modern, compact enclosure allows the stabilizer to be used in small and large spaces. The device is intended for indoor use.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Apparent power**	5000 VA
	Input voltage range	130 - 260 V AC
	Input frequency	50 Hz / 60 Hz
	Output voltage	230 V
	Output voltage precision	± 3%
	Delay time	6 s
	Efficiency	98%
	Power consumption with load	29 W
	Power consumption without load	11 W

TECHNICAL SPECIFICATIONS - CONTINUED

Protection and operating environment	**Protection types**	Overload, undervoltage, overvoltage, temperature, short-circuit
	Operating environment	Device intended for indoor use
Overall dimensions and weight	**Device dimensions**	302 x 260 x 146 mm
	Net weight	12,5 kg ±3%
	Individual package dimensions	385 x 360 x 220 mm
	Unit packaging weight	13,8 kg ±3%
