AVR 1000VA 8% SLIM VOLTAGE STABILIZER [STANDING/WALL-MOUNTED]

REGULAR RANGE

PRODUCT CODE
5AVRZS1000

EAN
5904100451982

CATEGORY
Voltage stabilizers and converters

SUBCATEGORY
AVR SLIM 8% single-phase mains voltage stabilizers

ABOUT THE PRODUCT

AVR 1000VA 8% SLIM is a mains voltage stabilizer combining the functions of a voltage regulator and a surge protection device. It automatically reduces excessively high voltage and raises excessively low voltage to the appropriate level, stabilizing the power supply to connected devices.

W the safe voltage value is exceeded, the stabilizer automatically disconnects the device from the mains, protecting it against damage. It also suppresses interference introduced into the electrical grid by other devices and operates with power generators.

The AVR 1000VA 8% SLIM model is designed to operate, among other things, with computer sets, servers, routers, modems and network components, as well as consumer electronics equipment such as amplifiers and audio mixers, loudspeakers, musical equipment, televisions, stereo systems, CD-DVD players and receivers.

The compact design and modern styling enable the stabilizer to be used in small and large spaces. The device can be wall-mounted.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Apparent power**	1000 VA
	Input voltage range	140 - 260 V AC
	Input frequency	50 Hz / 60 Hz
	Output voltage	230 V
	Output voltage accuracy	± 8%
	Delay time	180 s / 6 s
	Efficiency	0,98

TECHNICAL SPECIFICATIONS - CONTINUED

Protection and operating environment	**Protection types**	Overload, undervoltage, overvoltage, temperature, short-circuit (fuse)
	Operating temperature	0°C ~ 40°C
	Storage temperature	-15°C ~ 45°C
	Design	Wall Mounted (wall mounting)
Overall dimensions and weight	**Device dimensions after 2026**	197 * 117 * 90
	Device dimensions before the year 2026	252 x 125 x 76 mm
	Net weight	2,3 kg (± 3%)
	Individual packaging dimensions	270*160*140 mm
	Individual packaging weight	2,5 kg (± 3%)
