AVR 5000VA 8% SLIM VOLTAGE STABILIZER [STANDING/WALL-MOUNTED]

REGULAR RANGE

PRODUCT CODE
5AVRZS5000

EAN
5904100452019

CATEGORY
Voltage stabilizers and converters

SUBCATEGORY
AVR SLIM 8% single-phase mains voltage stabilizers

ABOUT THE PRODUCT

AVR 5000VA 8% SLIM is a mains voltage stabilizer combining the functions of a voltage regulator and a surge protection device. It automatically increases excessively low and decreases excessively high input voltage to the appropriate level, and disconnects connected devices from the mains if the safe value is exceeded.

The device suppresses interference introduced into the electrical network by other devices and is compatible with power generators. Its compact design and wall-mounting option allow it to be used in both small and large spaces.

The stabilizer is intended for use, among other things, with computer systems, servers, routers, modems and network components, as well as consumer electronics equipment such as amplifiers, audio mixers, loudspeakers, music equipment, televisions, stereo systems, CD-DVD players and AV receivers.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Apparent power**	5000 VA
	Input voltage range	140 - 260 V AC
	Input frequency	50 Hz 60 Hz
	Output voltage	230 V
	Output voltage accuracy	± 8%
	Delay time	180 s / 6 s
	Efficiency	0,98

TECHNICAL SPECIFICATIONS - CONTINUED

Protection and operating environment	**Protection types**	Overload, undervoltage, overvoltage, overtemperature, short circuit (fuse)
	Operating temperature	0°C ~ 40°C
	Storage temperature	-15°C ~ 45°C
	Construction	Wall Mounted (wall mounting)
Overall dimensions and weight	**Device dimensions**	387 x 192 x 82 mm
	Net weight	6,4 kg (± 3%)
	Individual package dimensions	450 x 240 x 135 mm
	Individual package weight	6,7 kg (± 3%)
