ABOUT THE PRODUCT

Universal AC power supply AC 120W + USB with a maximum power of 120 W, designed for laptops and compatible with an input voltage of 100-230 V. The output voltage in the range of 14-24 V can be adjusted using the switch on the housing. The included caps allow the switch to be locked in the selected position.

The power supply is equipped with a USB 5 V / 2 A port, enabling fast smartphone charging — up to 4x faster than via the standard USB socket in a laptop with an output of 500 mA. The device features short-circuit and overload protection.

The W set includes 10 interchangeable tips compatible with most laptops available on the market, including devices from brands Fujitsu, Sony, Samsung, Liteon, NEC, Toshiba, Sharp, Compaq, HP, Asus, Acer, Delta, IBM and Dell. The power supply measures 177 x 66 x 41 mm and weighs 0.5 kg.
