VP-5000 230V ↔ 110V (5000VA) VOLTAGE CONVERTER + SOFT-START

REGULAR RANGE

PRODUCT CODE
5K230110500

EAN
5903760240424

CATEGORY
Voltage stabilisers and converters

SUBCATEGORY
VP voltage converters 110V/230V/110V

ABOUT THE PRODUCT

VP-5000 230V ↔ 110V (5000VA) VOLTAGE CONVERTER + SOFT-START is a universal device designed to step down alternating voltage from AC-230V to AC-110V or step up voltage from AC-110V to AC-230V. The output voltage is 120 AC in accordance with current US standards. The converter has a proportional characteristic; therefore, the output voltage depends on the input voltage.

The converter is equipped with a toroidal transformer, ensuring high operating efficiency, and a metal housing with a convenient handle, resistant to mechanical damage. Earthed input and output increase operating safety.

The device is suitable for powering equipment from the USA and Japan, including chargers, shavers, players, household appliances such as the Kitchen AID Artisan food processor, and power tools such as saws, drills, grinders and screwdrivers.Winvalid

TECHNICAL SPECIFICATIONS

Electrical specifications	**Total power (instantaneous)**	5000 VA
	Input voltage	230 VAC or 110 VAC
	Output voltage	110 VAC (120 VAC according to current US standards) or 230 VAC
	SOFT-START function	Yes
Equipment and Connectors	**Output sockets (GWY)**	4x GWY
	Power cord	None (the device requires connection by the user)
