ABOUT THE PRODUCT

Universal car power supply DC 120W 12V for laptops, powered from a cigarette lighter socket with a voltage of 12 V. The output voltage is adjusted manually using a switch on the housing. The included cover allows the switch to be locked at the selected value.

The power supply uses a modern, fast microprocessor and protection against overcharging, short circuits, overvoltage and overheating. After the laptop battery has been charged, it disconnects the charging process and switches to maintenance mode.

The device has a sealed housing with passive cooling, a ferrite interference-suppression filter on the cable to the laptop, and an adapter with a USB socket. W the set includes 10 interchangeable tips for various laptop models, including types A, B, C, D, E, F, G, H, L and P.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Total power (□aneous)**	120 W
	Input voltage	12 V (range: 11 - 15 V)
	Output voltage	15 - 24 V (manually adjustable using a switch)
	No-load current	150 mA

TECHNICAL SPECIFICATIONS - CONTINUED

Design and Protection	**Control**	Modern, fast microprocessor
	Protection	Against overcharging, short circuits, overvoltage and overheating
	Housing features	Sealed, with passive cooling; cover for locking the switch at the selected voltage value
	Cable accessories	Interference-suppression filter (ferrite)
	Connectors included	10 interchangeable laptop plugs (including Type A, B, C, D, E, F, G, H, L, P) and an adapter with a USB socket
Overall dimensions and weight	**Device dimensions**	126 x 69 x 32,8 mm
	Net weight	580 g
	Individual package dimensions	225 x 182 x 54 mm
	Individual package weight	0,58 kg (580 g)
