ABOUT THE PRODUCT

Universal TIR car power supply 100W 24V for laptops, powered by voltage in the range 12-24V. The output voltage is selected manually using the switch on the housing. The included cover allows the switch to be locked at the selected value.

The device uses a fast microprocessor and protection against overcharging, short circuits, overvoltage and overheating. It is equipped with a ferrite interference-suppression filter on the laptop cable, a USB socket on the housing and a sealed housing with passive cooling.

The W set includes 11 interchangeable plugs compatible with most laptops, including types A, B, D, E, F, G, L, P, X, Z and a plug for Dell devices.
