ABOUT THE PRODUCT

The external display LCD for LiFePO4 batteries with BT enables real-time monitoring of the most important operating parameters of the energy storage system. The device monitors voltage, current, state of charge percentage and operating temperature, presenting the data on a clear LCD display.

Built-in Bluetooth connectivity enables wireless viewing of statistics. The display is suitable for recreational vehicles, watercraft, off-grid solar installations, as well as backup and emergency power systems.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Input voltage**	8 - 90 V
	Operating current	< 50 mA
Construction and dimensions	**Display type**	LCD
	Housing material	Plastic
	Power cable length	150 cm
	Device dimensions	70±1 x 45±1 mm
	Net weight	130 g
