ABOUT THE PRODUCT

The VOLT POLSKA IPS TRAVEL 4000 LCD 12/230V voltage converter (2000W/4000VA) enables household consumer electronics and appliances to be powered directly from a 12 V battery. It generates 230 V AC voltage at a frequency of 50 Hz with a modified sine waveform, providing continuous power of 2000 W and peak power of 4000 W.

The device is equipped with a clear LCD display showing operating status, voltage and load, as well as a USB-A port with QC 3.0 fast-charging function and power of 18 W. The intelligent fan starts above 45°C, adjusting cooling to the device temperature.

The converter features overload, short-circuit, thermal, undervoltage, overvoltage and reverse-polarity protection. The W set includes a remote control.
