ABOUT THE PRODUCT

SINUS TRAVEL 6000 24/230V BLACK (3000W/6000VA) LCD + PILOT VOLTAGE CONVERTER by VOLT POLSKA is a compact device designed to power a wide range of domestic consumer electronics and household appliances directly from a 24 V DC battery.

The converter generates 230 V AC AC voltage at a frequency of 50 Hz in the form of a pure sine wave. It is equipped with a clear LCD display and an intelligent cooling fan whose operation depends on temperature.

The device offers protection against overload, short circuit, overheating, excessively low and high input voltage, and reverse polarity. Two USB-A ports with QC 3.0 18 W function and a USB-C PD 30 W connector are provided for charging devices.
