ABOUT THE PRODUCT

The control panel with LCD display is designed for use with emergency power supplies from the Power Sinus series. It enables the power supply to be started, the Power Saver mode for energy saving to be activated, and basic operating parameters to be viewed.

The device is compatible with the following Power Sinus models: 2000, 3000, 4000, 5000 and 6000. The clear LCD screen displays, among other things, the input and output voltage, load, battery charge level and operating mode.

The panel is equipped with a 10 m cable and a RJ-46 plug.
