ABOUT THE PRODUCT

TERMO GLASS PRO 2000W Wi-Fi SMART WHITE ELECTRIC HEATER is a slim heater with an elegant white glass front. Thanks to its compact design, it can be used in both large and small rooms without taking up much space.

The device is equipped with an X-shaped aluminium heating element. The heater offers two installation methods: wall-mounted or freestanding, using the components included in the set.

Operation is performed using the touch control panel, remote control or Wi-Fi network. Remote control is possible using the Smart Life app, and the device is compatible with Amazon Echo and Google Home. Comfort, Eco and frost protection modes allow the operating method to be adapted to the user's needs.

The heater enables the use of a timer, child lock, digital thermostat, and heating schedules and scenarios available in the app.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Maximum power**	2000 W (in Eco mode: 1000 W)
	Voltage and frequency	230 V, 50/60 Hz
	Power consumption in standby mode	0,00089 kW
