ABOUT THE PRODUCT

TERMO GLASS PRO 2000W Wi-Fi COMFORT is a slim electric heater with an elegant white glass front. Thanks to its compact design, it can be used in both large and small rooms without taking up much space.

The device can be wall-mounted using brackets or placed on the floor on feet. The aluminium X-shaped heating element provides a modern heating solution.

The heater offers Comfort, Eco and Frost Protection modes, allowing operation to be adapted to the user's needs. The touch control panel ensures intuitive operation, while the remote control and Wi-Fi network connection enable remote control via the Smart Life app, compatible with Amazon Echo and Google Home.

Additional functions include a timer, child lock, schedules and heating scenarios available in the app, as well as a digital thermostat with a daily and weekly timer.
