ABOUT THE PRODUCT

The energy-efficient electronic OPTI ECO 25-60/180 (5-45W) circulating pump is used to force circulation in heating systems. It can be used in one-- and two-pipe systems as well as underfloor heating systems.

The pump automatically adjusts its operating characteristics to the system and the current demand, reducing energy losses. The use of an electric motor with permanent magnets ensures efficient operation of the device.

The pump design enables simple installation and operation, while the external plug facilitates connection. The universal design allows use in domestic heating systems, systems with variable flow or pipeline temperature, systems with night mode, air-conditioning systems, and domestic central heating and domestic hot water systems.

The device is characterised by a low noise level, high-quality workmanship, and an energy efficiency index of EEI

TECHNICAL SPECIFICATIONS

Electrical specifications	**Energy class and power**	A 5-45W
	Supply voltage	230V, -10%÷+6%, 50Hz
Operating features and construction	**Relative humidity**	95%
	Sound pressure level	Less than 43 dB
	Ambient temperature	0ºC ÷ +40ºC
	Fluid temperature	+2ºC ÷ +100ºC
	Maximum operating pressure	10bar
	IP rating	IP42
Dimensions and logistics	**Dimensions**	180x96x158mm
	Net weight	2,5kg
