ABOUT THE PRODUCT

The energy-efficient electronic OPTI ECO circulation pump 25-60/130 (5-45W) is designed to force circulation in heating systems. It can be used in single- and two-pipe systems, underfloor heating systems, domestic central heating and domestic hot water systems, as well as air-conditioning systems.

The pump automatically adapts its operating characteristic to the system parameters and instantaneous demand. The design, based on an electric motor with permanent magnets, helps to limit energy losses. The device has 8 operating modes and a night mode.

The display indicates power consumption [W] and head [m]. The pump features simple installation and operation, an external connection plug, a universal design and low noise level. It also has a low energy efficiency index EEI

TECHNICAL SPECIFICATIONS

Electrical specifications	**Energy class and power**	A 5-45W
	Supply voltage	230 V, -10%÷+6%, 50Hz
Operating features and construction	**Relative humidity**	95%
	Sound pressure level	Less than 43 dB
	Ambient temperature	0ºC ÷ +40ºC
	Fluid temperature	+2ºC ÷ +100ºC
	Maximum operating pressure	10bar
	IP rating	IP44

TECHNICAL SPECIFICATIONS - CONTINUED

Dimensions and logistics	Dimensions	130x96x157mm
	Net weight	2,02kg
	Unit packaging dimensions	20,5x15,3x15,5cm
	Unit package weight	2,64kg
