ABOUT THE PRODUCT

The BREEZE COMFORT 3,2L air humidifier is designed to humidify the air and display the current temperature and humidity. It helps maintain humidity at an optimal level, reducing discomfort associated with staying in rooms with very low humidity, such as dry skin and eyes, sore throat, headache or reduced concentration.

The device is equipped with a remote control that enables operation of all functions. The timer allows automatic switch-off to be set after up to 12 hours. The humidifier operates quietly, so it can be used during work, relaxation and sleep. Easy to assemble independently.

The BREEZE COMFORT 3,2L is suitable for use in the living room, bedroom, kitchen, office, conference room, restaurant, shop, warehouse, workshop, as well as relaxation, massage and meditation rooms and SPA facilities.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Supply voltage**	100-240 V, 50 Hz
	Power	25 W
