ABOUT THE PRODUCT

The COMFORT 50 tower fan is a portable device intended for air circulation indoors. It is suitable for use in living rooms, bedrooms, kitchens, offices, restaurants, shops, warehouses and workshops.

The device offers three airflow speed levels: low, medium and high. Adjustment is performed using an intuitive rotary knob. The fan operates quietly, while the oscillating head with a range of 70° provides wider air circulation.

The compact design, stable base and convenient handle facilitate use and transport of the device. The fan is intended for self-assembly and has a black finish.

TECHNICAL SPECIFICATIONS

Electrical specifications	Power	50 W
	Supply voltage	220-240 V / 50 Hz
