ABOUT THE PRODUCT

COMFORT DIESEL 15000 OIL-FIRED HEATER is a device with a heating output of 15000 W (15 kW), intended for heating semi-open and ventilated spaces such as production halls and warehouses. It may also be used in enclosed rooms, provided that adequate ventilation is ensured.

The built-in thermostat enables temperature adjustment within the range from 5°C to 55°C. The heater switches off automatically when the set temperature is reached, supporting fuel savings and high thermal efficiency.

The device has a solid, simple construction, and the fuel tank also serves as its base. It is intended for operation on diesel fuel or heating oil.

TECHNICAL SPECIFICATIONS

Electrical Parameters and Power Supply	**Supply voltage**	~ 230 V AC
	Heating output	15000 W (15 kW)
	Electrical power (current consumption)	230 W (0,9 A)
	Fuse	T 3,15 A

TECHNICAL SPECIFICATIONS - CONTINUED

Operating features and construction	**Fuel**	Diesel fuel, heating oil
	Fuel tank capacity	12 L (the tank forms a solid base for the device)
	Fuel consumption	0,8 kg/h
	Operating time	~ 12 h (with a full tank)
	Fuel filler size	0,30 gph
	Airflow	450 m³/h
	Air pressure	0,28 bar
	Thermostat	Built-in (temperature adjustment from 5°C to 55°C, automatic switch-off when the set temperature is reached)
	Protection	Overheating protection
	Additional equipment	Fuel level indicator, 1 carrying handle
	Application	Heating of semi-open spaces, ventilated areas, production halls and warehouses (for indoor use only when adequate ventilation is provided)
Dimensions and logistics	**Heater dimensions**	660 x 260 x 380 mm
	Net weight	10 kg
	Individual package dimensions	690 x 325 x 410 mm
	Individual package weight	12,3 kg
