## ABOUT THE PRODUCT

The COMFORT PLUS 2,5kW electric heater is a functional and practical device designed for heating small and medium-sized rooms. It does not consume oxygen, does not require fuel supplies and is designed for continuous operation.

It can be used in detached houses, workshops, warehouses, greenhouses, catering, retail and service premises, as well as office areas.

The device is resistant to mechanical damage and designed for long-term use. It is equipped with a built-in thermostat and a self-resetting thermal cut-out protecting against overheating. Control is performed using two knobs, and a cable with a plug is included.

## TECHNICAL SPECIFICATIONS

| | | |
|---|---|---|
| **Electrical specifications** | **Supply voltage** | 220-240 V AC |
| | **Maximum power** | 2500 W |
| | **Current consumption** | 8,3 - 9,1 A |
| | **Fuse** | 10 A |

## TECHNICAL SPECIFICATIONS - CONTINUED

| | | |
|---|---|---|
| **Operating features and construction** | **Power settings** | 30 W (fan-only operation) / 2500 W |
| | **Controls** | Two knobs (left: thermostat adjustment, right: operating mode/heating setting) |
| | **Thermostat** | Built-in (measures the air temperature and controls the heating element; the fan operates independently) |
| | **Protection** | Self-resetting thermal cut-out (overheating protection) at 55°C |
| | **Housing material** | Heat-resistant powder-coated steel sheet |
| | **Heating element** | Stainless steel |
| | **Additional equipment** | W cable with a plug included |
| | **Application** | Heating of small and medium-sized rooms (detached houses, workshops, warehouses, greenhouses, catering/service premises, offices); the device does not consume oxygen and is designed for continuous operation |
| **Dimensions and logistics** | **Heater dimensions** | 210 x 195 x 275 mm |
| | **Net weight** | 2,9 kg |
| | **Individual packaging dimensions** | 240 x 210 x 255 mm |
| | **Individual package weight** | 3,2 kg |
