ABOUT THE PRODUCT

The COMFORT 3,5kW electric heater is a practical device designed for heating small and medium-sized rooms. It does not consume oxygen, does not require fuel supplies and is suitable for continuous operation.

It can be used in detached houses, workshops, warehouses, greenhouses, catering, retail and service premises, as well as office areas.

The device is equipped with two knobs for setting the operating, heating and thermostat adjustment modes. The built-in thermostat measures the air temperature and controls the heating element, while the fan can operate independently. The heat-resistant housing made of powder-coated steel sheet increases resistance to mechanical damage. W the set includes a cable with a plug.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Supply voltage**	220-240 V AC
	Maximum power	3500 W
	Current consumption	12,5 - 13,6 A
	Fuse	16 A

TECHNICAL SPECIFICATIONS - CONTINUED

Operating features and construction	**Power settings**	30 W (fan-only operation) / 2000 W / 3000 W
	Controls	Two knobs (left: operating mode/heating setting, right: thermostat adjustment)
	Thermostat	Built-in (measures the air temperature and controls the heating element; the fan operates independently)
	Protection	Self-resetting thermal cut-out (overheating protection) at 75°C
	IP rating	IP20
	Housing material	Heat-resistant housing made of powder-coated steel sheet
	Heating element	Stainless steel
	Additional equipment	Cable with a plug included in the W set
	Application	Heating houses, warehouses, workshops, construction sites or greenhouses depending on the cable used
Dimensions and logistics	**Heater dimensions**	200 x 220 x 280 mm
	Net weight	2,2 kg
