ABOUT THE PRODUCT

The 9006X domestic repeller uses ultrasonic waves that affect the nervous and auditory systems of insects and animals. The emitted waves cause pests to feel threatened, prompting them to leave the device's operating area. The repeller does not adversely affect humans; however, the sound emitted to 70 kHz may be audible to cats.

The device is intended to repel, among others, mosquitoes, ticks, flies, spiders, cockroaches, moths, wasps, hornets, bedbugs, ants, mice, rats, martens, weasels, polecats, moles and nesting birds such as pigeons, tits, blackbirds and swallows.

The repeller is maintenance-free and starts operating immediately after being plugged into a mains socket. It does not require batteries. Installation is recommended 20-30 cm above the ground for rodents and 80-100 cm above the ground for flying insects, always away from obstacles that attenuate the waves. The best results are achieved after uninterrupted use for 2 to 4 months.

TECHNICAL SPECIFICATIONS

Electrical specifications	**Supply voltage**	AC 230 V / 50-60 Hz
	Power consumption	≤ 3 W

TECHNICAL SPECIFICATIONS - CONTINUED

Operating features and construction	**Operating principle**	Emission of ultrasonic waves that affect the nervous and auditory systems of animals and insects
	Effectiveness	Mosquitoes, flies, ticks, spiders, cockroaches, moths, wasps, hornets, bedbugs, ants, rodents (mice, rats, martens, weasels, polecats, moles), nesting birds (pigeons, tits, blackbirds, swallows)
	Coverage	80 - 120 m² (in open space)
	Recommended installation	Device plugged directly into a mains socket. 20-30 cm above the ground (against rodents); 80-100 cm above the ground (against flying insects); always away from obstacles that attenuate the waves.
	Important notes	The sound emitted to 70 kHz is audible to cats, so the device may not be suitable for their owners *(the marketing leaflet contains incorrect information about the absence of an effect on cats)*. The device does not adversely affect humans. The best results are achieved after uninterrupted use for 2 to 4 months.
Dimensions and logistics	**Repeller dimensions**	6,4 x 10 x 3,4 cm
	Net weight	0,04 kg
	Individual packaging dimensions	10 x 6,8 x 6 cm
	Individual package weight	0,062 kg
	Outer packaging dimensions	37,5 x 37,5 x 42 cm
	Weight of the outer packaging	7,9 kg
