ABOUT THE PRODUCT

The foldable solar panel 200W 18V MONO ETFE + USB 5V 3A + USB-C 3A is a compact solution for charging electronic devices using solar energy. The MONO monocrystalline cells and durable ETFE coating ensure high efficiency and resistance to weather conditions.

The panel is equipped with a USB-A port and USB-C, enabling direct charging of smartphones, power banks, cameras, GPS receivers and other compatible devices. The foldable, waterproof design facilitates transport and storage.

The panel is suitable for travel, camping, hiking, long journeys and as an emergency power source in the event of power outages. By using solar energy, it enables devices to be charged without access to a power outlet.
