ABOUT THE PRODUCT

Solar floodlight LED 100W with a solar panel 12W, battery 6000mAh and remote control converts solar energy into electrical energy stored in the battery. The absence of cabling enables easy installation without access to a power source.

W During the day, the panel absorbs solar energy, and after dark the light switches on automatically. The remote control enables selection of AUTO mode (dusk mode), forced activation and brightness adjustment. A timer switch is also available with settings of 3, 5 or 8 hours.

The floodlight can be used to illuminate streets, properties, gardens, entrance gates, car parks and open areas. The motion sensor can be enabled after 3 or 4 hours of continuous illumination. The housing is made of ABS.

TECHNICAL SPECIFICATIONS

Lighting and Power Parameters	**Maximum power**	100 W
	Luminous flux	700 LM
	Battery	6000 mAh
	Solar panel	12 W
	Material	ABS
Control and Functions (Remote Control)	**Control**	Remote control (included)
	Main functions	AUTO mode (dusk mode), forced activation, brightness adjustment
	Timer switch	3 hours, 5 hours, 8 hours
	Motion sensor (optional)	Motion detection can be enabled after 3 or 4 hours of continuous illumination

TECHNICAL SPECIFICATIONS - CONTINUED

Overall dimensions and Weight	**Floodlight dimensions**	217 x 179 x 45 mm
	Net weight	1,75 kg
	Dimensions of the individual package	36,5 x 25 x 8 cm
	Weight of the individual package	1,85 kg
