ABOUT THE PRODUCT

Summary based on the description published on the product page.

Archived product. The JOCKER 180W solar lamp with a 18 W solar panel and 20 000 mAh battery is designed to illuminate gardens, parks and architectural features without the need for connection to the mains. It is equipped with energy-efficient LED SMD5730 LEDs with a maximum power of 180 W and a luminous flux of 1600 LM.

The lamp has a high-efficiency polycrystalline solar panel and a durable ABS plastic housing resistant to rain and temperature. The device's water resistance rating is IP65. Charging time is from 6 to 8 hours, while operating time at 100% power is approximately 40 hours.

Built-in dusk and motion sensors automatically control the lighting. In W AUTO mode, the lamp operates at 30% power in standby mode, and upon detecting motion for 15 s, it activates 100% power. The motion sensor range is from 5 to 8 metres. Control is provided by the wireless remote control included in the set. Timer mode is also available, subject to the reservation contained in the manual.

TECHNICAL SPECIFICATIONS

Lighting and Power Supply Parameters	Maximum power	180 W
	Luminous flux	1600 LM
	Solar panel	18 W
	Battery	20 000 mAh
	LED LEDs	SMD5730
	Charging time	from 6 to 8 hours
	Operating time (100% power)	approx. 40 hours

TECHNICAL SPECIFICATIONS - CONTINUED

Construction and Functions	Material	ABS
	Water resistance rating	IP65
	Control	Wireless remote control (included)
	Sensors	Dusk sensor, motion sensor (range from 5 to 8 metres)
	Main operating modes	AUTO (100% power after motion is detected for 15s, 30% in standby mode), Timer (see the instruction manual)
Overall dimensions and weight	Lamp dimensions	74 x 25 x 7,2 cm
	Net weight	3,6 kg
	Individual packaging dimensions	37,5 x 9,5 x 75 cm
	Individual packaging weight	4,08 kg
