ABOUT THE PRODUCT

The WARRIOR 120W solar lamp with a 30W solar panel, 20 000 mAh battery and remote control is LED lighting intended for gardens, parks and architectural structures. It enables the selected area to be illuminated without connection to the electricity grid.

The lamp is equipped with a dusk sensor and intelligent light management. Available operating modes include automatic switching on after dusk and switching off at dawn, continuous mode with brightness of 100% or 50%, and timers switching the lamp off after 3 h, 5 h or 8 h.

High-performance LED LEDs are energy-efficient and have a long service life. The polycrystalline solar panel provides high charging efficiency, while the ABS plastic housing is resistant to rain and temperature. The post is not included in the set.

TECHNICAL SPECIFICATIONS

Lighting and Power Supply Parameters	**Maximum power**	120 W
	Luminous flux	1200 LM
	Solar panel	30 W
	Battery	20 000 mAh
Construction and Functions	**Construction material**	ABS
	Control	Remote control (included)
	Main operating modes	AUTO (switching on after dusk, switching off at dawn), Continuous mode (brightness 100% or 50%), Timers (switching off after 3h, 5h, 8h)
	Recommended installation height	from 3 to 5 metres
