HEX-GEN INVERTER 3500 DUAL FUEL 230V GENERATOR / POWER GENERATOR

LIMITED DISTRIBUTION

PRODUCT CODE
6GENIV3000

EAN
5904100453375

CATEGORY
Emergency power supply

SUBCATEGORY
HEX-GEN power generators (voltage generators)

ABOUT THE PRODUCT

The HEX-GEN DUAL FUEL 230V power generator is intended to supply electronic devices as an alternative energy source. It supports petrol and LPG, making it suitable for use in workshops, at campsites, construction sites, on boats and yachts, as well as in cars, trucks, motorhomes and tractors.

The device is equipped with a 1--cylinder, 4--stroke, air-cooled engine with a displacement of 210 cm3 and a maximum power of 7 HP. Continuous power is 3000 W, while total (instantaneous) power is 3500 VA. The generator has two 230 V output sockets, a fuel-level indicator, a voltmeter and output-circuit protection provided by a circuit breaker.

The oil-level indicator and overload protection increase operating safety. The engine is started manually using the TCI ignition system. The construction mounted on vibration-damping mounts and equipped with a muffler ensures quiet operation, while the handles facilitate carrying the device.

TECHNICAL SPECIFICATIONS

Generator and Power Parameters	**Continuous power**	3000W
	Total (instantaneous) power	3500VA
	Output voltage	230 VAC
	Output frequency	50 Hz
	Generator winding	Copper
	Voltage regulator	AVR

TECHNICAL SPECIFICATIONS - CONTINUED

Engine Parameters	**Engine displacement**	210 cm3
	Maximum engine power	7 HP / 3600 rpm (7 HP)
	Ignition	TCI
	Fuel tank capacity	~ 9 L
	Engine oil tank capacity	~ 0,6 L
Operating and Physical Data	**Maximum continuous operating time**	5 hours
	Noise level	60 - 65 dB(A)
	Device dimensions	490 x 420 x 500 mm
	Net weight	32 kg
